The "1st Middle Eastern and Mediterranean Sea Region Mass Spectrometry Workshop"

intends to gather scientists from these regions to discuss the variety of topics of mass spectrometry. It shall focus on mass spectrometry insights into proteomics, metabolomics, analytical chemistry, forensic studies, quantitation analysis and span a wide area of applications.

The aim is to promote a regional cooperation of scientists from different fields of Mass Spectrometry.

The workshop format will include oral and poster presentations and encourage informal discussion among scientists.

Keynote Speaker:

Alexander Makarov,

Thermo Fisher Scientific, Germany

Invited Speakers:

Catherine E. Costello, *Boston University, USA*

Roman A. Zubarev, *Karolinska Institutet, Sweden*

Michael Przybylski, *University of Konstanz, Germany*

Lloyd W. Sumner, *The Samuel Roberts Noble Foundation, USA*

Julia Laskin, *Pacific Northwest National Laboratory, USA*

Gary M. Hieftje, *Indiana University, USA*

Lisa H. Cazares, *Eastern Virginia Medical School, USA*

Jean-Claude Tabet, *Université Pierre et Marie Curie, France*

Anthony Tsarbopoulos, *University of Patras, Greece*

Giorgi Gianluca, *University of Siena, Italy*
