

All Oxide Photovoltaics

Theory and Experiment

16-18 DECEMBER 2013

Mishekenot Sha'ananim

International Cultural

& Conference Center

JERUSALEM, ISRAEL

Dear colleagues,

We are happy to announce a conference on All Oxide Photovoltaics

16-18 December 2013 in Mishkenot Shaananim Jerusalem.

Registration and poster submission is open for interested researchers and students.

Topics

- Combinatorial Material Science
experiment & Theory
- Photovoltaics
- Electronic structure of
metal oxides
- Theoretical and experimental
characterization of materials

Keynote Speakers

- Stefano Curtarolo, Duke University, USA
- David Ginley, NREL, USA
- Bruce Parkinson, University of Wyoming, USA
- Ichiro Takeuchi, University of Maryland, USA
- Qiang Zhu, Stony Brook University, USA
