A New Exhibition at the Clore Garden of Science: Dinosaurs - the giants of the past, the science of the future
Opening July 17, 2013

Special price for Weizmann Institute alumni:
55 NIS per ticket for alumni and their immediate family members
To purchase discounted tickets, call the Hadran ticket office at *2274 or 03-5215200
Discounted tickets can also be purchased on site at the Hadran ticket booth at the entrance to the Clore Garden of Science (business hours: Monday-Thursday 09:00-20:00, Friday 09:00-14:00)

Come and see life-size dinosaurs!

The largest | The smallest | The most vicious | The one with the smallest brain | ...and more
Here is an exclusive opportunity to see precise replicas of dinosaurs and the world they lived in that is only possible thanks to the latest scientific developments.
Life-size moving replicas of various special kinds of dinosaurs will be exhibited including the 25 meter-long Argentinosaurus – the largest animal that ever walked planet Earth.
The dinosaur researchers at the Clore Garden of Science will accompany visitors to see dinosaurs found in the thicket of plant life. You will be exposed to fascinating research from the various fields of science and will be given explanations, demonstrations, and opportunities to interact in hands-on activities related to topics in modern science.

Additional activities

- Huge sandboxes with scientific digging activities for the younger children
- A special workshop on the mechanics of dinosaur movement and flying during which we will watch experiential movies that arouse the imagination and emphasize scientific activities in the field
- Lectures by researchers on subjects including mass extinction on Earth, the latest developments in paleontology, asteroids, and advanced imaging technologies

Opening: July 17, 2013

Saturday to Thursday: 9am - 8pm

Fridays: 9am - 2pm

At the Clore Garden of Science, the Davidson Institute of Science Education, the Weizmann Institute of Science, Rehovot.
