

We just wanted to tell you...

**The Weizmann Library is
moving forward with a
new and improved
search interface!**

Why?

So... what's new ?

News

There are no news items

If you only want to see books from Weizmann's collection, you might want to change the Search to "Library Catalog"

Search results will now look like this:

The screenshot shows a library search interface. At the top, there's a navigation bar with links for 'NEW SEARCH', 'EJOURNALS', 'FEEDBACK', and 'OTHER SEARCH SERVICES'. A search bar contains the text 'modular functions' and has a 'Catalog' dropdown and a search icon. To the right of the search bar is an 'ADVANCED SEARCH' link. Below the search bar is a yellow banner with the text 'Sign in for more results or to request items' and a 'Sign in' button. The main content area is titled 'PAGE 1 311 Results'. On the left side, there are filters for 'Sort by' (set to Relevance), 'Show Only' (with options 'On the Shelf (49)' and 'Full Text Online (268)'), 'Resource Type' (set to Books (311)), 'Year Published' (with a range from 1800 to 2016), 'New Records' (set to New Last Month (311)), and 'Author/Creator'. The main list of results shows four books:

1. **Elliptic modular functions : an introduction** by Bruno Schoeneberg 1974. Available at Mathematics Library Open Shelves - m (515.983 SCH) >
2. **Modular functions and Dirichlet series in number theory** by Tom M. Apostol c1976. Available at Mathematics Library Open Shelves - m (512.73 APO) >
3. **Modular functions in analytic number theory** by Marvin Isadore Knopp 1933- c1970. Checked out from Mathematics Library stack (512.73 KNO) >
4. **Abelian varieties with complex multiplication and modular functions** by Goro Shimura 1930- c1998. Available at Mathematics Library Open Shelves - m (514.3 SHI) >

At the bottom right, there is a 'PAGE 1' indicator with a dropdown arrow.
