

Photography Competition

for the International Day for Cultural Diversity

Dear members of the Weizmann community,

May 21st marks the **"World Day for Cultural Diversity, Dialogue and Development"**, set by the UN to promote the issue of diversity. On this day, we promote the importance of diversity issues in science and society.

As an international science institution, the Weizmann community is very much diverse.

We seek and welcome students, staff and faculty who are culturally, ethnically, racially, religiously and in other ways diverse.

In honor of this day, we invite you all to participate in a photography competition focused on the subject of diversity and inclusion, in which we will celebrate the diversity that exists in our campus.

We invite students, scientists, administrative and technical staff, employees and the entire community to send us pictures from the life of the campus, which reflect the diversity that exists within it.

The images can show different types of diversity, for example:

Culture

Research and work teams that include people from different cultures

Nationality

Employees, scientists, faculty and students from different countries and diverse national identities

Religion

Members of different religions

Gender

Women and men, with diverse gender identities including members of the LGBTQ community

People with disabilities

alongside people from diverse backgrounds and identities

Age

Young, old, retired, and juniors working / studying / researching together

Disciplines

Diverse teams consisting of people from different disciplines, different roles and backgrounds, administrative staff working together

Science

Photographs from experiments or studies by members of the Weizmann Institute, which represent the diversity that exists in nature / the universe, and the dependence of diverse factors on each other

These are just few suggestions; **we would love for you to surprise us with creative thinking and additional ideas** to those mentioned above.

The photos can be from any year, in any composition, and represent both people (not necessarily to be taken at the Institute but there is a priority for this); Places; and different aspects of science.

The photos and accompanying text must be sent by e-mail to:

Sharon.diamant-pick@weizmann.ac.il
by **15.4.2021**.

From all the photos received, a committee will select the 3 winning photos, the winners will receive a **cash prize**:

First prize ₪1,000 | Second prize ₪600 | Third prize ₪400

In the future, it will be determined, with the consent of the photographers, whether the photos / some of them will be published inside and outside the Institute, as part of the celebration of "International Day for Cultural Diversity, Dialogue and Development".

Each picture should be accompanied by a short description

Photographer's name:

Where was it taken:

Photo description:

Who is in the photo and how it relates to diversity
