OF SCIENCE

Department of
Immunology and
Regenerative Biology

IMMUNOLOGY & REGENERATIVE BIOLOGY COLLOQUIUM

11 July, 2022

Prof. Alex Sigal, Ph.D.

*Milder disease with Omicron:
Is it the virus, pre-existing immunity, and will
infection protect us from other variants?*

5 September, 2022

Dr. Naomi McGovern

*The ontogeny and function of placental
macrophages*

15 September, 2022

Prof. Elaine Fuchs

Stem Cells: Coping with Stress

17 November, 2022

Prof. Susan Gasser

*H3K9me and heterochromatin in genome
stability, chromatin positioning and cell fate*

26 March, 2023

Prof. Francisco J. Quintana, PhD

Fishing for novel regulators of inflammation

23 April, 2023

Prof. Fabrizio d'Adda di Fagagna, Ph.D

*RNA-targeting opportunities in age-related
disorders*

19 June, 2023

Prof. Valerie Mizrahi, PhD

*Tackling Big Questions in TB:
a View from South Africa*
