

## Prize for outstanding Ph.D. graduates in their transition to postdoctoral training in Science Education abroad

### Call for applications

The Department of Science Teaching at the Weizmann Institute of Science (WIS) will award this academic year a prize of \$5,000 to an outstanding Ph.D. student whose research is in science or science education, who is in transition to start postdoctoral training in science education abroad. A special committee of WIS scientists will review the nominations and select the winner. The call is open to the nomination of candidates from all the universities in Israel.

#### Goal

To support the international training of the next cadre of leaders in Science Education research in Israel.

#### Deadline

**March 31, 2023**

#### Threshold requirements

- Full-time Ph.D. students or Ph.D. graduates (whose degree was approved after June 2021)
- Proven excellence in studies and research in science or science education
- Scheduled to start their postdoctoral training abroad in science education in 2023
- Mother-tongue level fluency in Hebrew or Arabic and a high level of English proficiency

#### Required documents

1. CV (including academic prizes and list of publications)
2. A one-page summary of the candidate's postdoc research proposal
3. A confirmation of acceptance to a postdoctoral training program in science education abroad starting in 2023

#### How to apply

1. Go to <https://stwww1.weizmann.ac.il/newforms/candidate/>
2. Upload the relevant documents
3. List the names of two scientists that will be providing letters of recommendation (one of them must be your Ph.D. thesis advisor)

#### Note

- The committee will not review incomplete application forms
