

Prize for outstanding Ph.D. graduates in their transition to postdoctoral training in Science Education abroad

Call for applications

The Department of Science Teaching at the Weizmann Institute of Science (WIS) will award this academic year a prize of \$5,000 to an outstanding Ph.D. student whose research is in science or science education, who is in transition to start postdoctoral training in science education abroad. A special committee of WIS scientists will review the nominations and select the winner. The CALL is open to the nomination of candidates from all the universities in Israel.

Goal

To support the international training of the next cadre of leaders in Science Education research in Israel.

Deadline

March 31, 2025

Threshold requirements

- Full-time Ph.D. students or Ph.D. graduates (whose degree was approved after June 2023).
- Proven excellence in studies and research in science or science education.
- Scheduled to start their postdoctoral training abroad in science education in 2025.
- Mother-tongue level fluency in Hebrew or Arabic and a high level of English proficiency.

Required documents

1. CV (including academic prizes and list of publications).
2. A one-page summary of the candidate's postdoc research proposal.
3. A confirmation of acceptance to a postdoctoral training program in science education abroad starting in 2025.

How to apply

1. Click the <https://stwis.org/gy7u3x>.
2. Upload the relevant documents.
3. List the names of the scientists that will be providing letters of recommendation (one of them must be your Ph.D. thesis advisor).

Notes

1. The committee will not review incomplete application files.
2. For questions, please contact Maayan Bar-Natan at maayan.bar-natan@weizmann.ac.il
