

## Open Rank Professorial Positions in Science or Mathematics Education

**The Department of Science Teaching at the Weizmann Institute of Science** in Israel invites candidates of exceptional scholarly and professional achievement to apply for tenure-track or tenured positions at the rank of Senior Scientist (equivalent to Assistant Professor), Associate or Full Professor. The positions are for physics education, chemistry education, life science education, earth science education, environmental education, computer science education, mathematics education, and other areas associated with science/mathematics education such as learning technologies, public outreach/citizen science, etc.

We seek colleagues who will enhance our current strengths as well as bring complementary professional expertise and skills to our community. The candidates are expected to conduct an active scholarship agenda leading to refereed publications and external grant funding, teach graduate courses, advise graduate students and postdoctoral fellows, and make a practical impact on science education in Israel. To be considered for this position, candidates must address the following qualifications: (1) an earned doctoral degree in science or in science/mathematics education, (2) postdoctoral experience in science/mathematics education, (3) evidence of exceptional scholarly accomplishment or promise, (4) ability to coordinate a research group and mentor doctoral dissertations, and (5) fluency in English and in Hebrew.

Qualified and interested candidates are requested to submit a letter of application highlighting their areas of primary scholarly expertise and interest. In addition, the submission should include names of five professional references, current curriculum vitae including a list of publications and, if applicable, the syllabi and materials from courses taught, and three writing samples. These materials should be submitted [Here](#).

For further information about the Department of Science Teaching, please see [The Department of Science Teaching](#).

Inquiries about the positions should be sent to Prof. David Fortus [Prof. David Fortus](#).

Review of applicants will occur as applications are received and screening will continue until candidates are selected to fill the positions.
