Agent Installation Guide – Cisco AnyConnect

The installation is automatic and requires a restart to run the agent.

At the end of the installation, the following icon will appear in the taskbar:

You can click on the icon to select the desired computer startup option.

Here are the choices:

1. To restart the computer immediately:
   - A. Click on "Restart Now"
   - B. In the window that opens, click "Restart".

2. To postpone the boot:
   - A. Click on "Open Restart Window"
   - B. In the window that opens, press "Snooze".

*If you choose not to reboot the computer, the computer will reboot automatically after 9 hours from the end of the installation.
