Mac@WIS - Add new Weizmann User with Jamf Connect

Jamf Connect:
Jamf Connect will add a local user with Weizmann credentials to the Mac.

Process:
1. Open Weizmann Self-Service and log-in.
3. Search and run the policy “Enable Jamf Connect login window”
4. The Mac will restart after about 1 minute

5. After the restart, you will see the Weizmann log-in window
6. When asked, enter Weizmann username/password
7. Enter password again.

8. The local user will be created with Weizmann credentials.
10. After the initial log-in a short setup window will run:

![Password Entry Screen]

11. Enter Mac password when requested

![Password Input Screen]

12. Wait until the process ends (about 5 minutes). The Mac will restart automatically.

![Setup Confirmation]

13.

14. Login to your user and start working!
