

Mac@WIS - Add new Weizmann User with Jamf Connect

Jamf Connect:

Jamf Connect will add a local user with Weizmann credentials to the Mac.

Process:

1. Open Weizmann Self-Service and log-in.

Self Service Login	
	שכון ויצבו לבדע אוווא אוואנין איז אווואנין אוואנין איז אווואנין אוואנין איז אווואנין אוואנין איז אווואנין איז א
	Weizmann Institute of Science Authentication page
	Username: username :שם משתמש: Password:
am11A	Password Reset - אימוס סיסמה

- 3. Search and run the policy "Enable Jamf Connect login window"
- 4. The Mac will restart after about 1 minute

- 5. After the restart, you will see the Weizmann log-in window
- 6. When asked, enter Weizmann username/password

7. Enter password again.

8. The local user will be created with Weizmann credentials.

10. After the initial log-in a short setup window will run:

11. Enter Mac password when requested

)	
osaso	ript	
osascript wants to	make changes.	
Enter your passwo	rd to allow this.	
Local User		
Password		
Cancel	ок	1

12. Wait until the process ends (about 5 minutes). The Mac will restart automatically.

14. Login to your user and start working!
