

The Cell Biology pre-SAAC Symposium

🕒 14:00-17:20

📅 October 30, 2022

📍 The David Lopatie Conference Centre
Weizmann Institute of Science

14:00 **Welcome**

14:05 **Prof. Johan Auwerx**

Ecole Polytechnique Federale
De Lausanne - Switzerland

*Ceramide synthesis links muscle
disorders with mitochondrial and
protein homeostasis*

14:35 **Prof. Matthias Hentze**

European Molecular Biology Laboratory -
EMBL Germany

Riboregulation of cell metabolism

15:05 **Prof. Andre Levchenko**

Yale University USA

*Unstable responses to hypoxia:
metabolic control of gene
expression in cancer*

15:35 **Coffee break**

15:50 **Prof. Brenda Schulman**

Max Planck Institute for Biochemistry,
Martinsried, Germany

*Regulation by the ubiquitin
system*

16:20 **Prof. Sharon Tooze**

Francis Crick Institute, London, England

*A Mechanistic Understanding of
Autophagosome Formation*

16:50 **Prof. Peter Walter**

University of California UCSF, and
Altos Labs - Bay Area Institute of
Science, USA

*Targeting the Cell's Stress
Pathways for Therapeutic Benefit*

Registration

did.li/RCONf

Organizing Committee

Zvulun Elazar
Avi Levy
Roni Paz

Conference Coordinator & Accessibility Issues
