

MOROSS INTEGRATED CANCER CENTER SYMPOSIUM

FROM CANCER GENOMICS TO IMMUNOTHERAPY

Dolfi and Lola Ebner auditorium
Weizmann Institute of Science

June 19th
2018

Program

- 8:45-9:15** Registration
- 9:15-9:25** Welcoming
- 9:25-10:25** **Keynote lecture**
Dr. Matthew M. Gubin
Washington University School
of Medicine
*"Neoantigens and High Dimensional
Analysis of Cancer Immunotherapy"*
- 10:25-10:55** **Prof. Yardena Samules**
Weizmann Institute of Science
*"Towards deciphering the neo-antigenic
and T cell receptor landscapes in melanoma"*
- 10:55-11:25** **Prof. Cyrille J. Cohen**
Bar-Ilan University
*"Isolation and study of neoantigen-specific T cells
from tumor and peripheral lymphocytes
for personalized immunotherapy"*
- 11:25-11:55** *Coffee break*
- 11:55-12:25** **Dr. Itay Tirosh**
Weizmann Institute of Science
"From single-cell genomics to immunotherapy"
- 12:25-12:55** **Prof. Martin Miller**
University of Cambridge
*"Dissecting the Tumor-Immune Microenvironment
of Ovarian Cancer"*

Free
Registration

Supported by: EKARD Institute for cancer diagnosis research | The Chorafas Institute for Scientific Exchange
