

Dept of Neurobiology
Mini-Symposium

From perception to action: imaging human brain function

Sunday, December 24, 2017 8.30-13.30 hrs

The David Lopatie Conference Center

08:30-09:00 Gathering & Coffee

Session 1

Chair: Prof. Alon Chen

09:00-10:00 Ella Striem-Amit

Dept of Psychology, Cognitive Neuropsychology Laboratory, Harvard University, Cambridge, MA

Experience-independent brain development in perception and action systems

10:00-11:00 Eran Eldar

Wellcome Trust Centre for Neuroimaging, Max Planck UCL Centre for Computational Psychiatry and Ageing Research, University College London

Adaptive and maladaptive dynamics of reward learning and mood

11:00-11:30 Coffee Break

Session 2

Chair: Prof. Rony Paz

11:30-12:30 Michal Ramot

National Institute of Mental Health (NIMH), Laboratory of Brain and Cognition, Bethesda, MD

Teasing apart correlation from causation in resting state networks: lessons from neurofeedback

12:30-13:30 Yaara Yeshurun

Neuroscience Institute and The Dept of Psychology, Princeton University, NJ

The neural underpinnings of narratives: A key mechanism for brain representation of information
