

MICC SYMPOSIUM

CANCER IMMUNOTHERAPY: successes and challenges

Dolfi and Lola Ebner auditorium
Weizmann Institute of Science

January 3rd
2018

Program:

- 9:00-9:30 Registration
- 9:30-9:40 **Prof. Michael Sela**
Weizmann Institute of Science
Welcome and Introduction
- 9:40-10:40 **Prof. Drew Pardoll**
Johns Hopkins University
"The transformation of cancer therapy through the immune system: from proof of concept to revolution"
- 10:40-11:10 **Dr. Rony Dahan**
Weizmann Institute of Science
"Optimization of immune checkpoint antibodies for cancer immunotherapy"
- 11:10-11:30 *Coffee break*
- 11:30-12:00 **Prof. Michal Lotem**
Hadassah Medical Center
"Connecting risk alleles of autoimmune disease to novel cancer immunotherapies"
- 12:00-12:30 **Prof. Zelig Eshhar**
Weizmann Institute of Science
"CAR T-cell therapy: challenges and promises"
- 12:30-13:00 **Prof. Yossi Yarden**
Weizmann Institute of Science
"Anti-receptor monoclonal and oligoclonal antibodies: The workhorses of cancer immunotherapy"

Free
Registration
