

ISSN 0907-4449

Volume 56

Part 11

November 2000

Acta Crystallographica Section D

Biological

Crystallography

Editor: Jenny P. Glusker

Recombinant iron
superoxide dismutase

XynB, a thermostable
 β -1,4-xylanase

Dienelactone hydrolase–
ligand(PMS) complex

α -Thrombin–RWJ-51438
complex

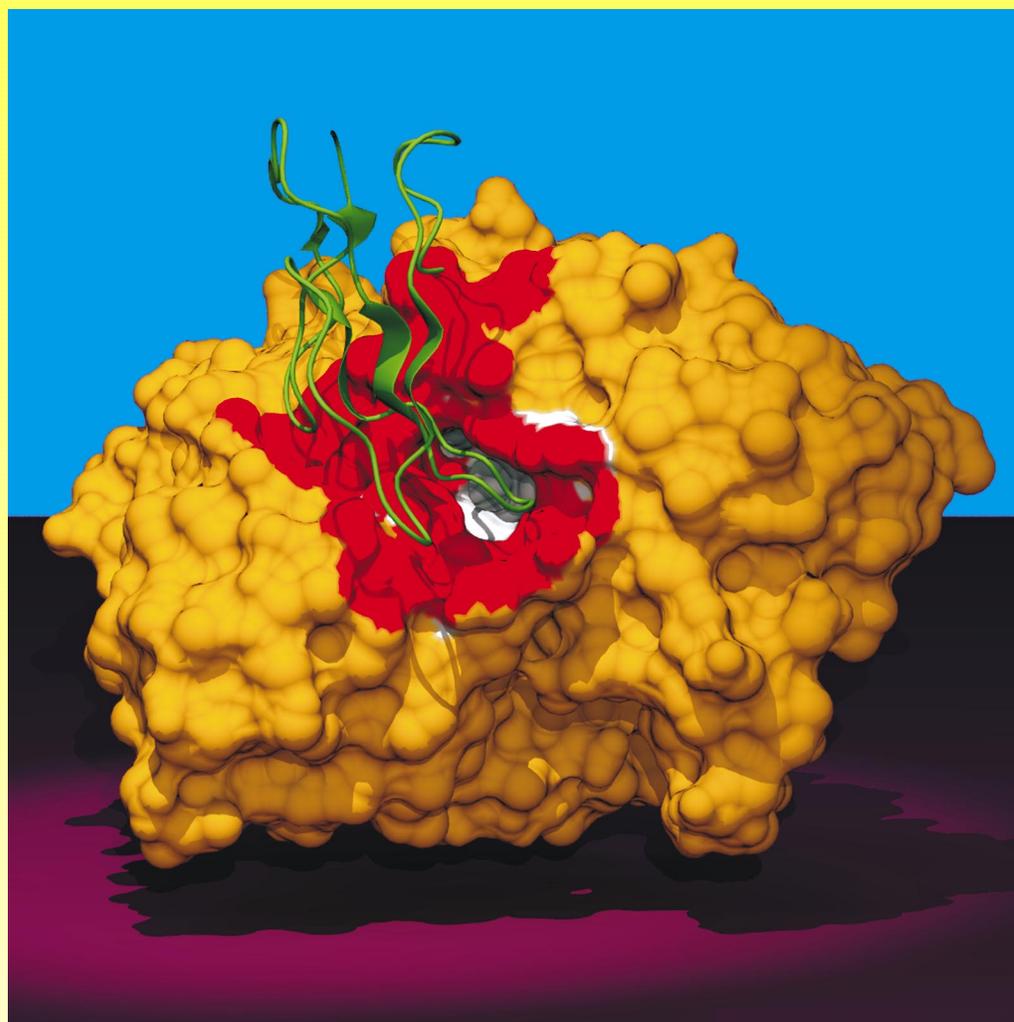

Bucandin toxin by direct
methods

Ferredoxin–NADP⁺
reductase–ferredoxin
interaction

Single-wavelength
anomalous diffraction
phasing

Phase accuracy in
electron-density maps

Report of a meeting on
automation of structure
determination

Acetylcholinesterase and fasciculin-II, p. 1385
