The Weizmann Institute of Science

The Weizmann Institute of Science is one of the world's leading institutions of basic scientific research in all disciplines of natural and exact sciences: mathematics and computer sciences; physics; chemistry; biochemistry and biology. Its scientists conduct studies in fields that are on the cutting edge of science and that serve to enrich human knowledge about the world around us and our role in the universe. The Institute's unique character encourages numerous multidisciplinary collaborations in all areas of research. Weizmann Institute investigations greatly further the development of new technologies and alternative sources of energy and the invention of new materials, medicines, and state-of-the-art medical treatment. The Institute invests considerable efforts and resources in scientific education for school-aged children and the public.

The Institute consists of some 3,000 scientists, students, and supporting staff. The Institute's budget is approximately one billion shekels – a quarter of which is granted by the Israel government with the remainder originating from grants won by the Institute's scientists as well as from donations and scholarships.

The Feinberg Graduate School

The Feinberg Graduate School is the educational arm of the Weizmann Institute of Science. It was founded in 1958 with the support of the United States Government. The Graduate School is named for Abraham Feinberg LL.B. (U.S.A.) founder and first Chair of its Board of Trustees. The main goal of the Feinberg Graduate School is the advanced training of new generations of creative and original researchers in the natural sciences and mathematics, or, in other words, the education of future scientific leaders.

The Graduate School offers programs leading to the degrees of Master of Science (M.Sc.) and Doctor of Philosophy (Ph.D.) in Physics, Chemistry, Life Sciences, Mathematics and Computer Science, and Science Teaching. Interdisciplinary programs are widespread and encouraged.

Since its founding, the Graduate School has been an accredited institution of higher learning in Israel. It later received an absolute charter granted by the Board of Regents of the State of New York. The instructors and advisors of the Graduate School are members of the scientific staff of the Weizmann Institute of Science. Currently, there are over 1,100 students, with a student-teacher ratio of 4:1, enabling considerable individual attention. The official language of instruction is English. This enables foreign students to participate fully in all of the Graduate School's programs. The only criteria for acceptance to the School are academic excellence and scientific integrity. Admission to all programs, privileges, and activities is granted without regard to race, gender, color, nationality, and origin. All students are directly involved in the research conducted at the Institute, and receive scholarships that allow them to devote all their energies to research and study. There are no tuition fees.

The Graduate School consists of five Research Schools: the Solo Dwek and Maurizio Dwek Research School of Chemical Science, the Ekard Research School of Biological Science, the Lorry I. Lokey Research School of Biochemical Science, the Moross Research School of Mathematics and Computer Science and the André Deloro Research School of Physical Science.

These schools provide an extra boost to the students' immersion into scientific research, supporting them in their becoming mature scientists. The Research Schools' benefits for students include a wide range of opportunities for personal development, such as scientific travel grants to facilitate expanded contacts with the international research community, and greater exposure to world leaders in their fields. Each Research School has a Board of Studies that coordinates all activities in the relevant discipline.

The Feinberg Graduate School is responsible for the administrative and academic aspects of the postdoctoral training at the Weizmann Institute of Science. The School also coordinates the Kupcinet-Getz International Summer Science School for outstanding international undergraduate students.

The Feinberg Graduate School is headed by a Dean, assisted by the Academic Secretary of the School and by a steering committee consisting of the Directors of the Research Schools. The Graduate School Office coordinates all the general administrative operations of the School.

Prof. Daniel Zajfman
President
Weizmann Institute of Science

Dear Graduates,

One hundred years ago, Albert Einstein formulated his general theory of relativity, generalizing special relativity and Newton's law of universal gravitation and providing a unified description of gravity as a geometric property of space-time. The theory's applied implications run wide and deep; for example, the analysis of relativistic effects on time measurement is an important practical engineering concern in the operation of global positioning systems—many other instruments, from electron microscopes to particle accelerators, would simply not work if relativistic considerations were omitted.

This towering achievement of 20th-century physics exemplifies the extraordinary importance of basic research; of exploring aspects of our world that appear to have no discernible application to daily life. It is precisely such work that often paves the way for others with a more practical bent. At the Weizmann Institute of Science, this is a supreme value: We let curiosity lead the way to discovery through rigorous investigations, and believe this is the best approach to advancing the human condition. I hope that wherever you go in the future, this value of free questioning and open-mindedly pursuing an answer to that which intrigues you will be your guide.

It gives me great pleasure to congratulate you, the Weizmann Institute's new graduates, your families, and your faculty advisors and mentors, on your academic achievements. You have accomplished a great deal to reach this graduation day. Your new degrees attest to your devotion to science, intense curiosity, and great perseverance.

You have brought a wealth of opinions, approaches, talents, and personal quests to our research community. Coming from different countries, you have enriched your research teams and colleagues, challenged yourselves and your advisors, and have collectively pushed the frontiers of human knowledge further. I sincerely hope that you have enjoyed the process and can now look back with satisfaction at your contribution to your peers, to the Weizmann Institute of Science, and to science as a whole. I know that many of you are already continuing toward another degree or postdoctoral training, and wish you every success. I am confident that you will make your mark in the global scientific arena, in advanced technology industries, science education, or any other field of your choosing.

Today I also wish to express my deep appreciation to the Feinberg Graduate School's alumni and faithful supporters, whose friendship has played an important role in the School's development.

We take pride in your achievements and wish you much success in the next stages of your careers. Although your years of study at the Weizmann Institute are ending, we want you to stay connected with the Institute as active alumni, and we hope to see you here on campus often.

Dear Graduates and Guests,

It is a privilege to congratulate you, the newest graduates of the Weizmann Institute—those of you who are receiving their doctorates and heading for new lives as independent researchers, and those who are receiving their Master’s degrees and continuing with their scientific training.

Each year, this is an exciting occasion—just like it was the first time. This excitement originates in our great joy and satisfaction with your accomplishments in basic science, as well as from our curiosity and expectation as we watch you take on leadership roles in the disciplines of science and technology, education, and social practice.

We live in an age of rapidly and, at times unexpectedly, changing political, economic, and social reality in Israel and around the world. Departing the scientific ‘greenhouse’ and realizing your potential these days is a professional and social challenge. Yet it is a worthy one, which we should embrace. Scientist and philosopher Yeshayahu Leibowitz said “Science is the one and only thing I know to be a universal human asset”.

You are stepping into a complex reality, wielding tools that will enable you to promote this universal asset. You absorbed knowledge, vision, and confidence in your abilities. Beyond the degree itself, your studies of mathematics, physics, chemistry, and biology have provided you with a set of skills, such as creative thinking, perseverance, and the ability to cope with complicated problems. One of the most important things you have learned here is to ask important, groundbreaking questions. This ability is founded upon deep and extensive knowledge, imagination, courage—and confidence. All these will, no doubt, bear fruits in the future.

Special thanks go to the family of each and every one of you, for nurturing and encouraging you to strive for excellence, and for the support they have given you from an early age and throughout the years. I also wish to thank my colleagues for their many hours of teaching, tutoring, guiding, and training you to be promising scientists.

Dear graduates, on your first day of studies here, we welcomed you into the Weizmann Institute family. And now, as you prepare to move on to your next destination, keep in mind that we will always see you as part of this family. As a family often does, we will continue to follow your progress with advice and support that emanates from a sense of responsibility and partnership.

Godspeed and good luck on your new paths.

Prof. Michal Irani
Chair
Scientific Council
Weizmann Institute of Science

Dear Graduates and Parents,

Every year I am deeply moved when I witness the graduates come up on stage in their gowns, as if they were my own children. And my children are here—those I have mentored throughout their master's and doctoral degrees; those I have watched grow in the past few years. Each farewell is a difficult one for us, your teachers and advisors, but also a source of immense pride. The bond that we have established between us is one-of-a-kind. Together, we experienced both frustrations and joys; breakthroughs and failures. Nothing is more exciting than to make a new scientific discovery together, to realize that together, we have reached a new, previously unknown place. It is a unique experience imprinted in memory. The advisor-student bond is no fleeting connection; it is a bond for life.

To this day, I proudly keep track of the successes of my former students. And to this day, I still consult with my former advisor.

I hope we have given you useful tools for the road ahead; that we have provided you with fishing rods and not fish. That we have taught you that the most important thing is to ask the right questions, and to never give up until you succeed. That without belief in one's goal, it is impossible to succeed—in research or in anything of substance in life—because the road ahead is a rocky one.

We watch you with pride, and look forward to your successes. Some of you will return, as scientists and colleagues, and will most likely even take our place on this podium. Nothing would make us prouder.

I wish you the best of luck.

Israeli Friends and Alumni
Organization

Dear Graduates

On behalf of the Weizmann Institute Alumni Organization, I would like first and foremost to congratulate all those who have joined the family of Weizmann Institute graduates this year and to wish you the best of luck for the future.

Many Weizmann Institute alumni hold senior posts and influential positions in Israel and abroad – a true source of pride for the Institute. A quarter of science PhD graduates in Israel are Weizmann alumni, and they greatly contribute to the country’s economic, scientific, and technological development.

The goals the Alumni Organization has set for the coming years are keeping in touch with Weizmann Institute alumni, creating a social and professional alumni network, and strengthening the Institute’s ties with Israel’s industrial and financial sectors.

I would like to take this opportunity to cordially invite you to visit our Alumni Organization website at www.weizmann.ac.il/alumni/ in order to register and update your contact details. During the registration process, you will be presented with the option of opening your personal alumnus e-mail address. Once you register, we will be able to keep in touch with you and send you Weizmann updates and news. We can also be found on Facebook and LinkedIn.

We welcome your ideas and initiatives for further strengthening the Alumni Organization as a meaningful and influential body.

I wish you all the best in your future endeavors and encourage you to keep in touch with us.

Prizes for Outstanding Students 2015

The John F. Kennedy Prize

The John F. Kennedy Memorial Prizes are sponsored by the Fund that was established at the Institute in memory of the late US President.

Dr. Anat Arzi

Advisor: Prof. Noam Sobel, Neurobiology

Dr. Serge Rosenblum

Advisor: Dr. Barak Dayan, Chemical Physics

Dr. Ron Rothblum

Advisor: Prof. Oded Goldreich, Computer Science and Applied Mathematics

Mr. Itamar Sivan

Advisor: Prof. Moty Heiblum, Condensed Matter Physics

The Dimitris N. Chorafas Prize

Dr. Dimitris N. Chorafas (1926-2014) advisor, author, thinker and philanthropist, established a foundation that awards scientific prizes for outstanding work in selected fields. Each year the foundation accepts candidates from a small number of prestigious universities from around the world, including the Weizmann Institute of Science.

Dr. Merav Parter

Advisor: Prof. David Peleg, Computer Science and Applied Mathematics

Dr. Jennifer Resnik

Advisor: Prof. Rony Paz, Neurobiology

The Prof. Israel Dostrovsky Memorial Prize

The Weizmann Institute of Science and the Israel Atomic Energy Commission jointly award an annual prize for excellence in memory of Prof. Israel Dostrovsky who served as the first Director-General of the IAEC and as the fifth President of the Weizmann Institute of Science.

Dr. Revital Kaminker

Advisor: Prof. Milko van der Boom, Organic Chemistry

Dr. Yotam Soreq

Advisor: Prof. Gilad Perez, Particle Physics and Astrophysics

The Elchanan E. Bondi Memorial Prize

Dr. Elchanan Bondi died in 1971. Elchanan did his doctoral thesis in the Department of Biophysics while suffering from a kidney disease.

Dr. Giora Alexandron

Advisors: Dr. Michal Armoni, Science Teaching

Prof. David Harel, Computer Science and Applied Mathematics

The Dov Elad Memorial Prize

Prof. Dov Elad died in 1979. Dov was a professor of chemistry and chaired the Board of Studies in Chemical Sciences. He contributed significantly to the Institute and to the Graduate School.

Dr. Sivan Refaely-Abramson

Advisor: Prof. Leeor Kronik, Materials and Interfaces

The Shimon Reich Memorial Prize

Prof. Shimon Reich died in 2010. Shimon was a professor in the Department of Materials and Interfaces, of the Faculty of Chemistry, at the Weizmann Institute of Science for forty years.

Dr. Eyal Karzbrun

Advisor: Prof. Roy Bar-Ziv, Materials and Interfaces

Dr. Ephraim Shahmoon

Advisor: Prof. Gershon Kurizki, Chemical Physics

The Gad Resheff Memorial Prize

Gad Resheff was killed in 1973 during the Yom Kippur War while serving as the commander of an outpost at the Suez Canal. He was awarded the Medal of Valor posthumously. Gad was a doctoral student in the Department of Biophysics.

Dr. Kuti Baruch

Advisor: Prof. Michal Schwartz, Neurobiology

Prizes for Outstanding Students 2015

The Giora Yoel Yashinski Memorial Prize

Giora Yoel Yashinski was killed in action in 1971 in an air force plane that crashed on the Sinai coast. Giora completed his studies towards a Master's Degree in the Department of Chemical Physics.

Dr. Asaf Levy

Advisor: Prof. Rotem Sorek, Molecular Genetics

The Daniel Brenner Memorial Prize

Daniel Brenner was killed in the Battle of Sidon during the 1982 Lebanon War: Operation Peace for Galilee. Daniel was a doctoral student in the Department of Chemical Physics.

Mr. Gilad Fuchs

Advisor: Prof. Moshe Oren, Molecular Cell Biology

The Lady Anne Chain Memorial Prize

Lady Anne Chain was a noted researcher and friend of the Weizmann Institute of Science for many years.

Dr. Tslil Ast

Advisor: Dr. Maya Schuldiner, Molecular Genetics

The Esther Hellinger Memorial Prize

Dr. Esther Hellinger was born in England. She joined the staff of the Daniel Sieff Research Institute upon its establishment in 1934 and worked with Dr. Chaim Weizmann.

Dr. Orna Issler

Advisor: Prof. Alon Chen, Neurobiology

The Haim Holtzman Memorial Prize

Haim Holtzman was killed in 1969. Haim was an air force pilot. He died while trying to land his burning plane, beyond the residential area of northern Rehovot.

Mr. Alexander Shamov

Advisor: Prof. Ofer Zeitouni, Mathematics

The Menashe Milo Memorial Prize

Menashe Milo completed his studies in Physics as part of the academic reserves. During the Yom Kippur War, Menashe fought in the Golan Heights as a tank commander. Menashe died suddenly in 1981.

Dr. Amir Bar

Advisor: Prof. David Mukamel, Physics of Complex Systems

The Lonia and Jose Roth Memorial Prize

The prize is awarded for outstanding Ph.D. thesis research combined with excellence in writing in English. Lonia and Jose M. Roth were Holocaust survivors who admired both the natural sciences and fine writing. The Prize is in memory of their lifelong support of the Weizmann Institute and of Israel.

Dr. Gil Cohen

Advisor: Prof. Ran Raz, Computer Science and Applied Mathematics

With gratitude to the supporters of the graduate studies program at the Weizmann Institute of Science

The Weizmann Institute of Science and the students and staff of the Feinberg Graduate School are grateful to our many friends throughout the world who have generously funded our graduate studies program.

The Weizmann Institute created five new Research Schools affiliated with its five Faculties to expand and enhance its graduate education. These strategic investments provide students with greater opportunities for personal development and independent research, expanded contacts with the international research community, and even greater exposure to world leaders in their fields.

*The **Lorry I. Lokey Research School of Biochemical Science** was established by California entrepreneur and philanthropist Lorry Lokey in 2007. It provides students in biochemistry, at all levels, with the tools and opportunities needed to excel.*

*Two brothers, Maurizio from Geneva and Solo from Milan, and their families founded the **Solo Dwek and Maurizio Dwek Research School of Chemical Science** in 2008 to provide students in chemical sciences necessities such as laptops, software, journal subscriptions, and conference travel expenses.*

*Chairman of the International Board of the Weizmann Institute, financial wizard Mandy Moross of London, established the **Moross Research School for Mathematics and Computer Science** in 2009. The Moross Research School sponsors special guest lectures, student-led workshops, and other enrichment for students of mathematics and computer sciences.*

*The **Ekard School of Biological Sciences** was also established in 2009 with an anonymous donation from a member of the International Board. The Ekard School provides funding to attract guest lecturers and visiting scientists in emerging areas of biology.*

*The **André Deloro Research School of Physical Science** was established in 2013 by the Adelis Foundation, founded by French entrepreneur and philanthropist André Deloro. The Deloro Research School works in tandem with the André Deloro Institute for Space and Optics Research to explore the nature of the universe from the smallest particle to the most distant galaxies.*

The David Lopatie Fellows

Up to ten David Lopatie Fellows in the MSc and PhD tracks are selected each year by the Dean of the Feinberg Graduate School, based on exceptional academic excellence. This prestigious award includes a first-year PhD scholarship and a personal travel allowance for scientific meetings, workshops, and schools.

These strategic investments provide students with greater opportunities for personal development and independent research, expanded contacts with the international research community, and even greater exposure to world leaders in their fields.

Scholarships are precious gifts—in essence, gifts of knowledge. They enable our students to concentrate on their studies, freeing them to devote their full energies to coursework and laboratory research. This steadfast encouragement has borne fruit in the many research scientists all over the world who began their careers at the Weizmann Institute of Science. Today's graduates are tomorrow's scientific leaders.
