

Dear new MSc students,

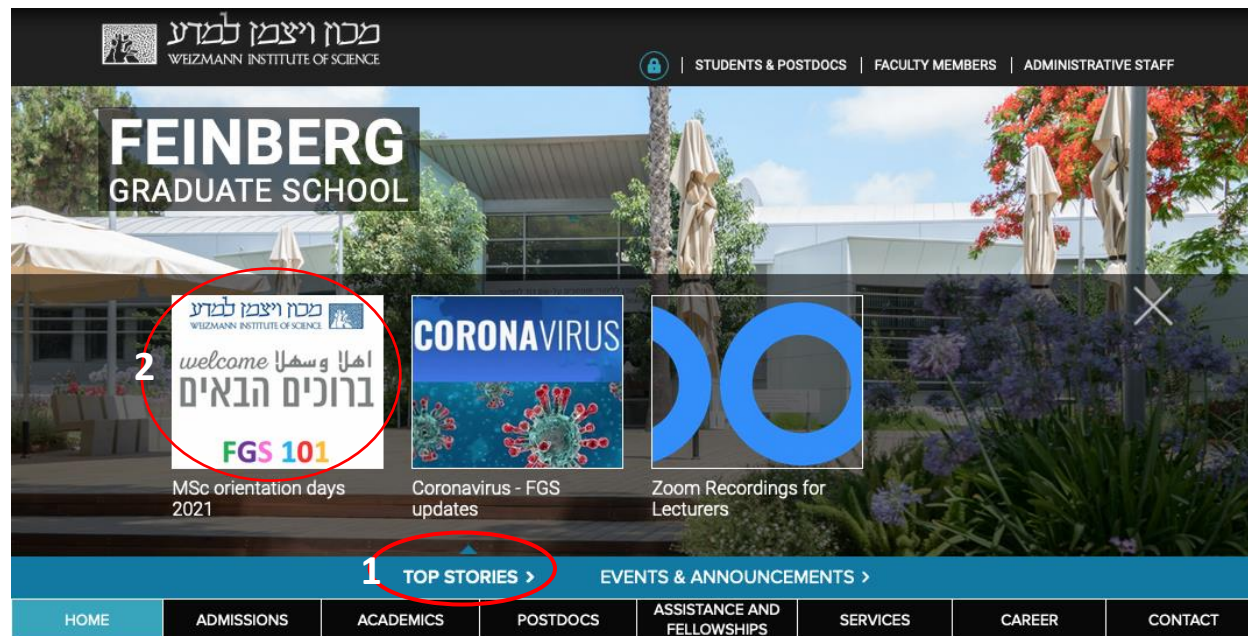

Welcome to the Feinberg Graduate School of the Weizmann Institute of Science!

**Orientation days (October 12-14, 2021)**

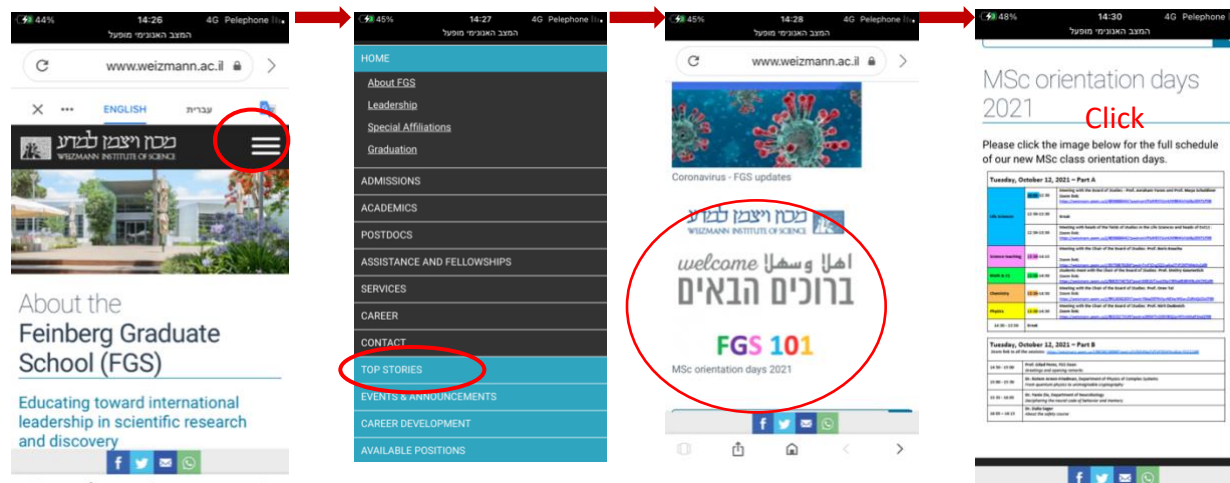

The first three days of the new academic year, starting on **Tuesday, October 12, 2021**, will be dedicated to an overview and orientation. All sessions this year will be conducted online - via **Zoom**. Pages 3-7 below outline the program and specify the relevant Zoom links.

The schedule (without the Zoom links) is also available at the FGS homepage under Top Stories.

<https://www.weizmann.ac.il/feinberg>

You may also view it on your cellular phone (via the **Feinberg Graduate School responsive website**):

### Attendance and participation

Please note that your attendance and participation are **obligatory** in all its parts. If, for some reason, you will not be able to attend, please email a message to your FGS Faculty Coordinator. Those of you who will study within the “soldiers’ program” framework, please do your best to attend the Prevention of Sexual Harassment and Safety workshops.

### Computing services

In the morning hours of Tuesday, October 12th, you will receive a personal email from WIS with the following important information:

- Your WIS username
- Your Israeli cellphone number that we have on record
- A link to an interface that will help you secure a WIS password
- Your WIS email address
- Information about the F5 VPN client (necessary for remote access to WIS online services)

### Registration for courses rotations

Upon receiving your WIS username and as soon as you set your WIS password and install a F5 VPN client on your computer, you will be able to register for courses (and for rotations - where applicable) via the FGS desktop App or mobile App. More information on the FGS Apps is available at:

<https://www.weizmann.ac.il/feinberg/home/about-fgs/fgs-mobile-app-and-desktop-app-support>

### Safety course

According to WIS regulations on safety, you must attend a safety course before starting your studies. This year, due to the Corona pandemic, the safety course will be held in a different format and will consist of two stages:

1. First, you will attend a series of lectures via zoom (please consult the schedule at the end of this document to determine which relevant sessions are relevant to you). There will be two courses running simultaneously—one in Hebrew and one in English. Therefore, there will be two separate zoom links. Please consult the relevant schedule (Hebrew on page 5 and English on page 6).
2. After that, you will have to complete a set of short online safety tutorials and a test. You will be able to access these online tutorials via [FGS Moodle](#). To do that, you must first register for the course **Safety in the laboratory** (course code **20228061**).

We wish you much success in your studies with us.
