

# Fire Prevention for Charging Motorized or Electric Bikes, Scooters and Hoverboards

**1**

**Do not charge motorized or electric bikes, scooters, etc. near flammable materials!**

**2**

**Stay nearby until charging is completed!**

**3**

**Make sure to purchase a standard lithium battery, compliant with Israeli Standards!**

**4**

**Do not leave motorized or electric bikes, scooters, etc. in the charger when you are asleep!**

## Remember!

Many fires are caused by a failure to comply with the safety guidelines for charging motorized or electric bikes, scooters and hoverboards

**Comply with the guidelines and prevent a fire!**
