

Fire Hose Instruction

1. Open the fire hose cabinet!
2. Take the hose out of its plastic covering!
3. Extend the hose from the water valve towards the direction of the fire!
4. Connect an additional hose if needed!
5. Connect the hose clutch to the valve and sprayer nozzle!
6. Turn the water valve and direct the water stream towards the source of the fire!
7. **Remember!** Disconnect electricity before using water to extinguish a fire!

Remember! In case of emergency,
contact the Emergency hotline at **2999**
