

ShePhysics

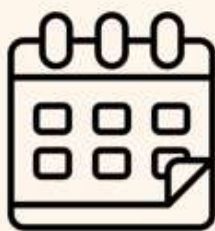

Join us for an exceptional opportunity: an intimate talk with Prof. Robin Selinger from Kent State university

In this special talk, Prof. Robin Selinger will discuss her career in theoretical soft matter physics, tracing her path from early research to a professorship at Kent State University's Advanced Materials and Liquid Crystal Institute. She will share insights from her work in materials science and her experience becoming the first woman faculty member at Kent State to be elected Fellow of the American Physical Society.

Location

Koffler Accelerator,
Conference hall

Date and time

February 25th
12:30 – lunch
12:50 – talk
