The Weizmann Institute of Science

The Weizmann Institute of Science is one of the world's leading institutions of basic scientific research in all disciplines of natural and exact sciences: mathematics and computer sciences; physics; chemistry; biochemistry and biology. Its scientists conduct studies in fields that are on the cutting edge of science and that serve to enrich human knowledge about the world around us and our role in the universe. The Institute's unique character encourages numerous multidisciplinary collaborations in all areas of research. Weizmann Institute investigations greatly further the development of new technologies and alternative sources of energy and the invention of new materials, medicines, and state-of-the-art medical treatment. The Institute invests considerable efforts and resources in scientific education for school-aged children and the public.

The Institute consists of some 3,000 scientists, students, and supporting staff. The Institute's budget is approximately one billion shekels – a quarter of which is granted by the Israel government with the remainder originating from grants won by the Institute's scientists as well as from donations and scholarships.

The Feinberg Graduate School is the educational arm of the Weizmann Institute of Science. It was founded in 1958 with the support of the United States Government. The Graduate School is named for Abraham Feinberg LL.B. (U.S.A.) founder and first Chair of its Board of Trustees. The main goal of the Feinberg Graduate School is the advanced training of new generations of creative and original researchers in the natural sciences and mathematics, or, in other words, the education of future scientific leaders.

The Graduate School offers programs leading to the degrees of Master of Science (M.Sc.) and Doctor of Philosophy (Ph.D.) in Physics, Chemistry, Life Sciences, Mathematics and Computer Science, and Science Teaching. Interdisciplinary programs are widespread and encouraged.

Since its founding, the Graduate School has been an accredited institution of higher learning in Israel, and received an absolute charter granted by the Board of Regents of the State of New York. The instructors and advisors of

the Graduate School are members of the scientific staff of the Weizmann Institute of Science. Currently, there are over 1,100 students, with a student-teacher ratio of 4:1, enabling considerable individual attention. The official language of instruction is English. This enables foreign students to participate fully in all of the Graduate School's programs. The only criteria for acceptance to the School are academic excellence and scientific integrity. Admission to all programs, privileges, and activities is granted without regard to race, gender, color, nationality, and origin. All students are directly involved in the research conducted at the Institute, and receive scholarships that allow them to devote all their energies to research and study. There are no tuition fees.

The Graduate School consists of five Research Schools: the Solo Dwek and Maurizio Dwek Research School of Chemical Science, the Ekard Research School of Biological Science, the Lorry I. Lokey Research School of Biochemical Science, the Moross Research School of Mathematics and Computer Science and the André Deloro Research School of Physical Science.

These schools provide an extra boost to the students' immersion into scientific research, supporting them in their becoming mature scientists. The Research Schools' benefits for students include a wide range of opportunities for personal development, such as scientific travel grants to facilitate expanded contacts with the international research community, greater exposure to world leaders in their fields through student-organized lectures, workshops, and conferences, and support for services and information resources.

The Feinberg Graduate School is headed by a Dean, assisted by a steering committee consisting of the Directors of the Research Schools. Each Research School has a Board of Studies that coordinates all activities in the relevant discipline. The Graduate School Office, headed by a Director and Academic Secretary, coordinates general administrative operations of the School.

The Feinberg Graduate School also coordinates the Kupcinet-Getz Summer School Program for undergraduate students from Israel and abroad.

Prof. Daniel Zajfman
President
Weizmann Institute of Science

Dear Graduates,

It gives me great pleasure to congratulate you upon attaining an advanced degree in science. This achievement required years of concentrated efforts and dedication. It has also required a resolute support system – your families, friends and faculty advisors, who provided unwavering support and encouragement during your study years.

The world you have entered is an exciting one. Scientists are making incredible discoveries all over the world. Only this year, for example, researchers have revived the largest virus yet known from a 30,000-year-old sample of frozen tundra, detected water vapor on a distant dwarf planet, and restored through a new gene therapy the sight of patients who would otherwise have gone blind – to name but a few outstanding achievements.

A scientist works on solving a puzzle. Slowly the full picture reveals itself, as the pieces are identified and put into place, one at a time. In all cases, this process relies on empirical and measurable evidence attained by hard and meticulous work and uncompromising analysis which is subjected to rigorous scrutiny. In most cases, creative thinking plays an important role in solving complex problems. And in some cases, the discovery process is greatly enriched by chance findings or fortunate ‘mistakes’ whose value was realized by the trained and inquiring mind.

Conservative yet inventive, cautious yet creative, firmly grounded in fact yet out-of-the-box: Without either, new discoveries would not be made. This is the bipolar character of frontier science. And this bipolarity is why excellent researchers need continuous training – but also fresh and inquisitive minds that can be maintained only if they have the freedom to search for answers to the questions that gnaw at them.

Their thirst to understand drives them to embark on highly complicated projects, which expand the boundaries of human knowledge and reshape the face of society and economy. And what appears today to be basic academic research can lead to the development of advanced industrial applications that could drive tomorrow’s economy. For a country such as Israel, whose current economic outlook is increasingly based on knowledge, such investment is a must.

We thank the Feinberg Graduate School’s faithful supporters who have the vision to make this investment in you—the scientists of tomorrow. Their philanthropy has played a major role in the School’s development, and we are deeply grateful for their partnership.

I hope that in any path you choose, you will maintain your critical thinking and curiosity and the many other skills that you have gained in your time at the Weizmann Institute.

Dear Graduates and Guests,

It is a great honor to congratulate the new graduates of the Weizmann Institute of Science upon receiving advanced degrees in science – both recipients of PhD degrees, who are embarking on a new life as independent researchers, and recipients of MSc degrees, who are continuing their scientific training.

As in other important junctures in life, this occasion is characterized by great satisfaction and joy, a keen expectation and hope for the future – but also by a certain sadness, or wistfulness, because an era has come to a close.

During your years of study at the Weizmann Institute, you have led independent, groundbreaking projects. Guided by your scientific curiosity, you have created new directions in research and made a significant contribution to expanding the bounds of human knowledge. Here you learned how to ask the most interesting and challenging questions; to think in a fresh, original, and thorough way; and to perform uncompromising research.

When Albert Einstein was asked to explain the key to his scientific success, he pointed to chutzpah: The ‘nerve’ to question conventional wisdom; to innovate, create, contribute, and to go above and beyond current perceptions. I believe our shared experiences at the Institute have provided you with a scientific ‘chutzpah’. Interwoven with rich learning and with your personal capabilities, this special brand of chutzpah can lead to groundbreaking science.

Your studies here have provided you with a toolbox, including, first and foremost, creative thinking. I hope you will succeed in directing the wonderful skills you have acquired here to take on any challenge, anywhere, in whatever professional field you choose, whether in academia, industry, education, or business and management initiatives. Hayim Nahman Bialik, Israel’s national poet, expressed this eloquently in one of his writings:

“A new time does not uproot or discard anything but shuffles orders and relative positions.”

Finally, I would like to thank you for granting us the privilege to experience together with you the joy of challenging scientific work. Your role in the research of labs throughout the Institute has been a significant one, and I would like to thank you for your contributions.

I hope you will continue to ask the right questions with courage and scientific ‘chutzpah’ and think creatively in any field you are involved in.

Congratulations and good luck.

Prof. Michal Irani
Chair
Scientific Council
Weizmann Institute of Science

Dear Graduates and Parents,

Each year, as I watch our capped-and-gowned graduates on stage, I am deeply moved as if these were my own children. And in a sense, the students that I advised in their Masters' degree and PhD and those that I guided over the last few years are my children. Together, we experienced both frustration and joy, breakthroughs and failures. There is nothing more exciting than making a new scientific discovery – to understand that together, we have come to a place where there was no one before us. This is an exceptional experience, one that is etched in us for life.

The connection forged here between us, advisors and students, is unique. To this day, I follow my former students' achievements; to this day, I consult with my own former advisor. So, for us, your teachers and advisors, each such parting is difficult – but it also fills us with pride.

I hope we have given you meaningful tools for the continuation of your journey: that we have provided you with fishing hooks, not fish; that we have taught you that the most important thing is to ask the right questions, and not give up until you succeed; and that without believing in your research mission, it is impossible to accomplish much, because the journey is full of obstacles. And to quote Albert Einstein: "Learn from yesterday, live for today, hope for tomorrow. The important thing is not to stop questioning."

We – your advisors and all those who took part in your training here – look at you now with pride, and look forward to your future success. Some of you will probably return to the Institute, as scientists and our colleagues, and eventually take our place here on stage. This will be a source of great pride for us.

I wish you much luck in your future endeavors.

Executive Director
Israeli Friends and Alumni
Organization

Dear Graduates

On behalf of the Weizmann Institute Alumni Organization, I would like first and foremost to congratulate all those who have joined the family of Weizmann Institute graduates this year and to wish you the best of luck for the future.

Many Weizmann Institute alumni hold senior posts and influential positions in Israel and abroad – a true source of pride for the Institute. A quarter of science Phd graduates in Israel are Weizmann alumni, and they greatly contribute to the country's economic, scientific, and technological development.

The goals the Alumni Organization has set for the coming years are keeping in touch with Weizmann Institute alumni, creating a social and professional alumni network, and strengthening the Institute's ties with Israel's industrial and financial sectors.

I would like to take this opportunity to cordially invite you to visit our Alumni Organization website at www.weizmann.ac.il/alumni/ in order to register and update your contact details. During the registration process, you will be presented with the option of opening your personal alumnus e-mail address. Once you register, we will be able to keep in touch with you and send you Weizmann updates and news. We can also be found on Facebook and LinkedIn.

We welcome your ideas and initiatives for further strengthening the Alumni Organization as a meaningful and influential body.

I wish you all the best in your future endeavors and encourage you to keep in touch with us.

Prizes for Outstanding Students 2014

The John F. Kennedy Prize

The research prizes in memory of John F. Kennedy are awarded by the memorial fund for the late U.S. President. The Kennedy Fund awards grants to research students, travel grants, postdoctoral fellowships, and grants to senior visiting scientists at the Institute.

Dr. Guy Gur-Ari

Advisors: Prof. Ofer Aharony, Particle Physics and Astrophysics
Prof. Micha Berkooz, Particle Physics and Astrophysics

Dr. Rotem Ben Tov Perry

Advisor: Prof. Michael Fainzilber, Biological Chemistry

Dr. Omer Yaffe

Advisor: Prof. David Cahen, Materials and Interfaces

Dr. Oded Zilberberg

Advisor: Prof. Yuval Gefen, Condensed Matter Physics

The Dimitris N. Chorafas Prize

An international prize awarded by Swiss philanthropist Prof. Dr. Dimitris N. Chorafas. Each year, the fund he heads accepts candidates from a small number of selected prestigious universities from around the world, including the Weizmann Institute of Science.

Ms. Liron Barak

Advisor: Prof. Eilam Gross, Particle Physics and Astrophysics

Mr. Johannes Leonhard Floss

Advisor: Prof. Ilya Averbukh, Chemical Physics

The Elchanan E. Bondi Memorial Prize

Dr. Elchanan Bondi died in 1971. Elchanan did his doctoral thesis in the Department of Biophysics while suffering from a kidney disease.

Dr. Avraham Ashkenazi

Advisor: Prof. Yechiel Shai, Biological Chemistry

The Dov Elad Memorial Prize

Prof. Dov Elad died in 1979. Dov was a professor of chemistry and chaired the Board of Studies in Chemical Sciences. He contributed significantly to the Institute and to the Graduate School.

Dr. Yael Mutsafi

Advisor: Prof. Abraham Minsky, Structural Biology

The Shimon Reich Memorial Prize

Prof. Shimon Reich died in 2010. Shimon was a professor in the Department of Materials and Interfaces, of the Faculty of Chemistry, at the Weizmann Institute of Science for forty years.

Mr. Assaf Gal

Advisors: Prof. Lia Addadi, Structural Biology
Prof. Stephen Weiner, Structural Biology

Dr. Naama Lang-Yona

Advisor: Prof. Yinon Rudich, Earth and Planetary Sciences

The Gad Resheff Memorial Prize

Gad Resheff died in 1973 during the Yom Kippur War while serving as the commander of an outpost at the Suez Canal. He was awarded the Medal of Valor posthumously. Gad was a doctoral student in the Department of Biophysics.

Dr. Michal Breker

Advisor: Dr. Maya Schuldiner, Molecular Genetics

The Giora Yoel Yashinski Memorial Prize

Giora Yoel Yashinski died in action in 1971 in an air force plane that crashed on the Sinai coast. Giora completed his studies towards a Master's Degree in the Department of Chemical Physics.

Dr. Noam Vardi

Advisor: Prof. Naama Barkai, Molecular Genetics

Prizes for Outstanding Students 2014

The Daniel Brenner Memorial Prize

Daniel Brenner fell in 1982 during the Lebanon War in the battle for Sidon. Daniel was a doctoral student in the Department of Chemical Physics.

Ms. Aya Ben-Yakov

Advisor: Prof. Yadin Dudai, Neurobiology

The Lady Anne Chain Memorial Prize

Lady Anne Chain was a noted researcher and friend of the Weizmann Institute of Science for many years.

Ms. Liron Gal

Advisor: Dr. Eli Arama, Molecular Genetics

The Esther Hellinger Memorial Prize

Dr. Esther Hellinger was born in England. She joined the staff of the Daniel Sieff Research Institute upon its establishment in 1934 and worked with Dr. Chaim Weizmann.

Dr. Tal Rousso

Advisor: Prof. Ben-Zion Shilo, Molecular Genetics

The Haim Holtzman Memorial Prize

Haim Holtzman was killed in 1969. Haim was an air force pilot. He died while trying to land his burning plane beyond the residential area of northern Rehovot.

Dr. Omer Ziv

Advisor: Prof. Zvi Livneh, Biological Chemistry

The Menashe Milo Memorial Prize

Menashe Milo completed his studies in Physics as part of the academic reserves. During the Yom Kippur War, Menashe fought in the Golan Heights as a tank commander. Menashe died suddenly in 1981.

With gratitude to the supporters of the graduate studies program at the Weizmann Institute of Science

The Weizmann Institute of Science and the students and staff of the Feinberg Graduate School are grateful to our many friends throughout the world who have generously funded our graduate studies program.

The Weizmann Institute has created five new Research Schools affiliated with its five Faculties to expand and enhance its graduate education. All of the research schools have been endowed: The Lorry I. Lokey Research School of Biochemical Science, established in 2007; the Solo Dwek and Maurizio Dwek Research School of Chemical Science, established in 2008; the Moross Research School for Mathematics and Computer Science, established in 2009; the Ekard School of Biological Sciences, established in 2009, and the André Deloro Research School of Physical Science, established in 2013.

These strategic investments provide students with greater opportunities for personal development and independent research, expanded contacts with the international research community, and even greater exposure to world leaders in their fields.

Scholarships are precious gifts—in essence, gifts of knowledge. They enable our students to concentrate on their studies, freeing them to devote their full energies to coursework and laboratory research. This steadfast encouragement has borne fruit in the many research scientists all over the world who began their careers at the Weizmann Institute of Science. Today's graduates are tomorrow's scientific leaders.
